WELCOME

How to Solve

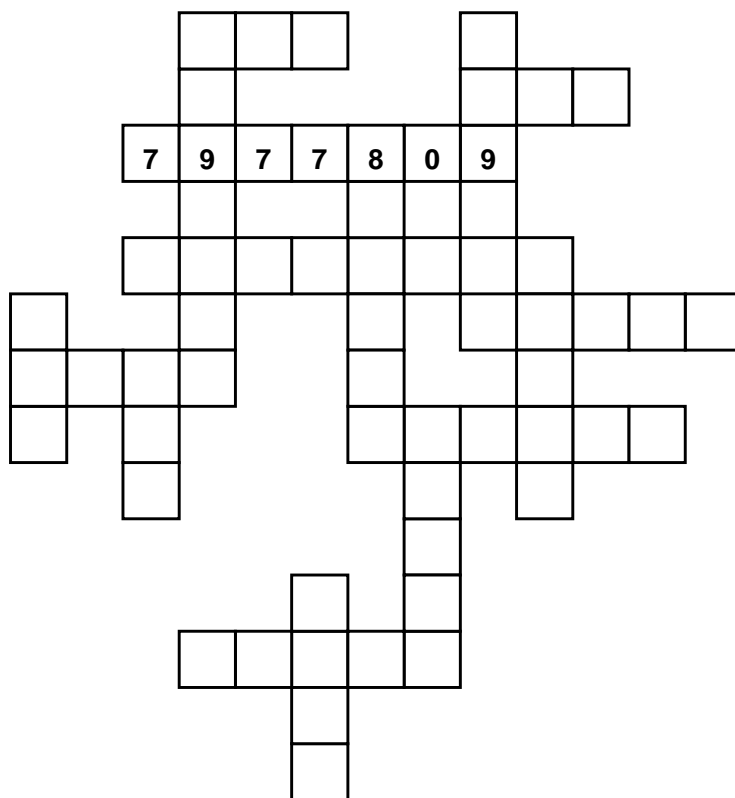

Fit every listed number into the grid, one digit per square. Numbers read left to right or top to bottom, and each number has exactly one place it can go. There is no arithmetic at all.

Start with the number we filled in for you, then try the lengths with the fewest numbers. Cross each one off as you go.

Full answers are at the back of the book.

PUZZLE 1

Number Grid 1

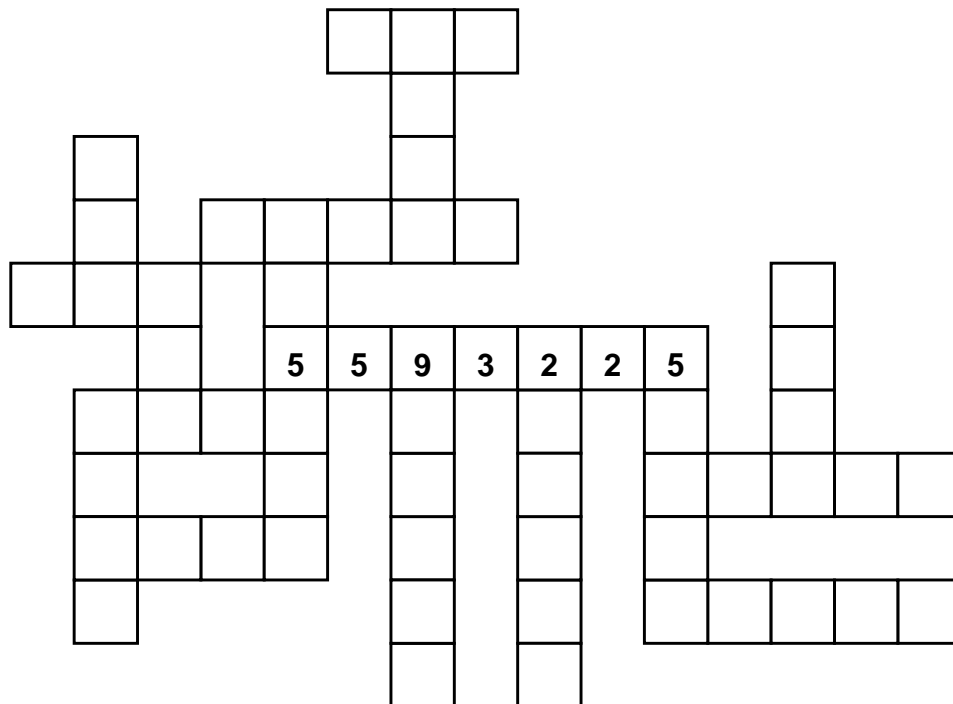

One entry is filled in to start you off: 7977809

- 3 DIGITS** 172 391 526 553
